Re: The Rock Show performance at Fremont Street Experience

Curt,

Thank you very much for recommending and providing The Rock Show to The Fremont Street Experience. The band's "Ultimate Tribute to Journey" set was remarkably accurate both vocally and musically.

The Fremont Street Experience has developed a reputation of having only the best regional and national bands. The Rock Show certainly lived up to expectations and the reputation of downtown Las Vegas.

All of our FSE sound technicians have unanimously communicated to me that the band was very professional to work with and their energetic performance was able to capture the attention of the Fremont Street guests. And these guests certainly have other distractions when visiting the Fremont Street Experience! The band also brought an amazing number of loyal followers from Michigan all the way to Las Vegas; this is very impressive!

Thank you very much for helping arrange the booking for The Rock Show. We look forward to a return date with these guys.

Sincerely,

A handwritten signature in black ink that reads "Len Turner". The signature is written in a cursive, flowing style.
